TOWN WARRANT.

THE STATE OF NEW HAMPSHIRE.

To the Inhabitants of the Town of Salisbury, in the County of Merrimack in said State, qualified to vote in town affairs:

You are hereby notified to meet at the town house in said town on Tuesday, the eighth (8th) day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the ensuing year.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.

3. To see what sum of money the town will vote to raise and appropriate for the repair of its highways and bridges.

4. To see what sum of money the town will vote to raise and appropriate for permanent improvement of its highways under Chapter 35, Laws of 1905.

Given under our hands and seal this 18th day of February, in the year of our Lord nineteen hundred and ten.

Highway Department.

Statement Relating to State Aid for Highways in Town of Salisbury, N. H.:

Under Chapter 29 of the Laws of 1899, towns are required to raise one-fourth of one per cent of their valuation for the maintenance of roads, provided, however, that no town is required to raise an amount exceeding \$50 per mile of road. The valuation of the towns for 1910, and the actual mileage of roads in each town cannot be definitely stated at this date, hence the amounts opposite "A" and "C" below are approximate only.

Subject to the above statement, the following amounts relate to the above-named town:

A. Amount required to be raised under the law of 1899, one-fourth of one per cent	\$676 85
B. Additional amount if town applies for state aid,	135 00
C. Total minimum amount required to be raised for highway purposes if town applies for state aid,	\$811 85

If no application for state aid is made in 1910, the town is required under Section 3 of Chapter 35, Laws of 1905, to set apart and expend for permanent improvement the sum of \$270.00.

If the town does apply for state aid under the above-mentioned law of 1905, a joint fund for the town is formed, the items of which are as follows:

Set apart by town under Section 3,	\$270 00
Set apart by town under Section 4,	135 00
Apportioned by state under Section 5,	243 00
Total joint fund raised in 1910,	\$648 00
Total available fund,	\$648 00

REPORT OF BOARD OF HEALTH.

The Board of Health have been called upon to act more than usual the past year as it was thought best to fumigate under the existing conditions in several cases where not absolutely required by the existing laws. There has been the past year one case of diphtheria, and one of tuberculosis, measles have occurred in four families. Typhoid has prevailed to an unusual extent, there have been 15 cases in four families, resulting in two deaths, and six other cases of persons who were working here were removed to their homes or to the Concord hospital. It is supposed to have had its origin in the use of the water from one well. Samples of the water were sent to the State Laboratory and it was pronounced unfit for use.

Respectfully submitted,
JOHN SHAW,
CHARLES A. GREEN,
Board of Health.

SCHOOL REPORT.

In presenting our annual report it is not necessary to enter into any extended remarks on our school system. In selecting teachers we have endeavored to procure such as were adapted to the schools under their charge, and we know that we have been fortunate in every school.

A word to parents: A great improvement is needed in the matter of prompt attendance. Now, parents, you ought to know that a school cannot do as well with several of the pupils late every day, or absent; and we find when the parents are prompt, and kindly help their children to form the habits of punctuality that we have the best results. Then help them and help the school. It is the earnest co-operation of parents, with the pupils and teachers in schools, with the help and the earnest work of the whole school board that will give the best results.

During the past year we have made repairs on the North Road house and find that our schoolhouses want some repairs done on the inside. Most of them are in bad shape, and if we have a pleasant room for the children, it will help to make a pleasant and profitable school.

TOWN WARRANT.

THE STATE OF NEW HAMPSHIRE.

To the Inhabitants of the Town of Salisbury, in the County of Merrimack, in said State, qualified to vote in Town Affairs,

You are hereby notified to meet at the town house in said town, on Tuesday, the fourteenth (14th) day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.

3. To see what sum of money the town will vote to raise and appropriate for the repairs of its highways and bridges.

4. To see what sum of money the town will vote to raise and appropriate for permanent improvements of its highways under Chapter 35, Laws of 1905.

5. To see if the town will vote that the public necessity demands the discontinuance of the Stevens' cemetery, so called, and the cemetery at McAlister's Farm, heretofore maintained and belonging to the town.

6. To see if the town will establish and provide, within its limits, a new cemetery for the interment of deceased persons subject to such regulations as the town may, from time to time, establish and to locate the same.

7. To see if the town will vote to discontinue the Stevens' cemetery, so called, and the cemetery at McAlister's Farm.

Given under our hands and seal, this 23d day of February, in the year of our Lord nineteen hundred and eleven.

Highway Department.

Statement Relating to State Aid for Highways in Town of Salisbury, N. H.:

Under Chapter 29 of the Laws of 1899, towns are required to raise one-fourth of one per cent of their valuation for the maintenance of roads, provided, however, that no town is required to raise an amount exceeding \$50 per mile of road. The valuation of the towns for 1910, and the actual mileage of roads in each town cannot be definitely stated at this date, hence the amounts opposite "A" and "C" below are approximate only.

Subject to the above statement, the following amounts relate to the above-named town:

A. Amount required to be raised under the law of 1899, one-fourth of one per cent,	\$676 85
B. Additional amount if town applies for state aid,	135 00
C. Total minimum amount required to be raised for highway purposes if town applies for state aid,	\$811 85

If no application for state aid is made in 1910, the town is required under Section 3 of Chapter 35, Laws of 1905, to set apart and expend for permanent improvement the sum of \$270.00.

If the town does apply for state aid under the above-mentioned law of 1905, a joint fund for the town is formed, the items of which are as follows:

Set apart by town under Section 3,	\$270 00
Set apart by town under Section 4,	135 00
Apportioned by state under Section 5,	243 00
Total joint fund raised in 1910,	\$648 00
Total available fund,	\$648 00

SCHOOL REPORT.

In presenting our report there is no use of our going into all of the minute details of the past year, for the parents have taken the most active part for the benefit of all the schools in town, for which the board are truly thankful; and we also wish to thank you all for the hearty co-operation and all the help rendered during the session of the Institute in town and the full attendance of the parents and others. And we hope you all will take the same or more interest in the coming School Meeting to hear the reports of the committee and to express your wishes and render all the help possible for the benefit of the children in our schools.

Truly yours,

E. N. SAWYER,
J. W. LITTLE,
F. S. SARGENT,

School Board of Salisbury.

Highway Department Statement.

Relating to State Aid for Highways in Town of Salisbury, N. H.

Under Chapter 29 of the Laws of 1899, towns are required to raise one-fourth of one per cent of their valuation for the maintenance of roads provided however that no town is required to raise an amount exceeding \$50 per mile of road. The valuation of the towns for 1911 and the actual mileage of roads in each town cannot be definitely stated at this date, hence the amounts opposite A and C below are approximate only. Subject to the above statement the following amounts relate to the above named town.

A. Amount required to be raised under the law of 1889, one-fourth of one per cent,	\$676 85
B. Additional amount if town applies for state aid,	135 00
C. Total minimum amount required to be raised for highway purposes if town applies for state aid,	811 85

If no application for state aid is made in 1911 the town is required under Section 3 of Chapter 35, Laws of 1905, to set apart and expend for permanent improvement the sum of \$270.00.

If the town does apply for state aid under the above mentioned law of 1905, a joint fund for the town is formed, the items of which are as follows:

Set apart by town under Section 3,	\$270 00
Set apart by town under Section 4,	135 00
Apportioned by state under Section 5,	243 00
<hr/>	
Total joint fund raised in 1911,	648 00
Amount used in 1911,	52 00
<hr/>	
Total available fund,	\$596 00

TOWN WARRANT.

THE STATE OF NEW HAMPSHIRE.

To the inhabitants of Town of Salisbury in the County of Merrimack, in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town House in said Town on Tuesday, the 11th day of March next, at nine of the clock in the forenoon to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation of the same.

3. To see what sums of money the town will vote to raise and appropriate for repairs of its highways and bridges.

4. To see what sums of money the town will vote to raise and appropriate for permanent improvements of its highways under Chapter 35, Laws of 1905.

5. To see what sums of money the town will vote to raise and appropriate for its state road.

6. By petition: To see if the town will vote to accept as a highway the driveway now leading from the Bay road near Hamilton Gookin's house across Blackwater river, as the driveway now leads to land of Fred S. Sargent, or what they will do in relation thereto. Agreeable to a petition of Guy Gookin and others.

Given under our hands and seal this 22nd day of February in the year of our Lord, nineteen hundred and thirteen.

Highway Department Statement.

Relating to State Aid for Highways in Town of Salisbury, N. H.

Under Chapter 29 of the Laws of 1899, towns are required to raise one-fourth of one per cent of their valuation for the maintenance of roads provided however that no town is required to raise an amount exceeding \$50 per mile of road. The valuation of the towns for 1912 and the actual mileage of roads in each town cannot be definitely stated at this date, hence the amounts are approximate only. Subject to the above statement the following amounts relate to the above named town.

1st. The amount required to be set apart in 1912 for permanent improvement in main highways was	\$250 00
On February 15, 1912, there was an unex- pended balance of previous fund amount- ing to	506 70
Making total improvement fund in your town of	\$756 70
Fund remains unexpended,	300 98
Highway appropriation required in the town of Salisbury for general repair of high- ways and bridges,	867 44
If the town does not vote to accept state aid it must set aside as a permanent improve- ment fund,	346 00
If state aid is desired there must be raised and set aside the sum of	173 00
If state aid is accepted and voted the state will appropriate	311 40

REPORT OF SCHOOL BOARD.

To the Citizens of Salisbury School District:

We have a few words, worthy of mention:

One thing is the indifference shown by some of the parents.

Some of the children are not able to go to school, but are able to go fishing. Now some of the parents are justly to blame for all such wrong, and ought to try to remedy it. While others work hard to have their children attend school and have their names on the roll of honor and teach them to be good men and women, with just and upright morals, and such parents should be blest, and helped by all mankind. Now let us all attend the school meeting and one and all try to help the children of Salisbury.

Thanking you for all kindness we are

Truly yours,

F. S. SARGENT,
JOHN SANBORN,
JOHN LITTLE,

School Board of Salisbury.

STATE OF NEW HAMPSHIRE.

Highway Department Statement.

Relating to State Aid for Highways in Town of Salisbury, N. H.

Under Chapter 29 of the Laws of 1899, towns are required to raise one-fourth of one per cent of their valuation for the maintenance of roads, provided, however, that no town is required to raise an amount exceeding \$50 per mile of road. The valuation of the towns for 1913 and the actual mileage of roads in each town cannot be definitely stated at this date, hence the amounts are approximate only. Subject to the above statement the following amounts relate to the above named town.

Highway appropriation required in the town of Salisbury.

For general repair of highways and bridges (Chapter 29, laws of 1899.)	\$895 38
If the town does not vote to accept State Aid it must set aside as a Permanent Improvement fund, (Chapter 35 laws of 1905, section 3.)	\$358 00
If State aid is desired there must be raised and set aside the sum of, (Chapter 35 laws of 1905, section 4.)	\$179 00
If State aid is accepted and voted the State will appropriate, (Chapter 35 laws of 1905, section 5)	\$322 20
If the town votes to apply for state aid the Joint Fund will be as follows:	
Town to raise,	\$537 00
State to give,	322 20

To the Selectmen :

We suggest that you cause the following extract from the report of the Tax Commission for 1914 to be printed in your town report this spring. It may tend to economy in town appropriations.

Very truly

STATE TAX COMMISSION,

By W. B. Fellows, Secretary.

REPORT STATE TAX COMMISSION 1914.

Increase in Public Expenditures.

No power has constituted the members of the tax commission guardians of the public in respect to expenditures for the support of government, and they have no disposition to assume that role. Nevertheless, "economy being a most essential virtue in all states," and it being "the duty of legislatures and magistrates * * * to countenance and inculcate the principles of * * * economy," all as set forth in the constitution of this state, the commissioners believe themselves to be amply justified in urging, as they have so often urged before, the importance of this subject upon the voters of the state. The public revenue, state and municipal, is the voters' business and they are responsible, directly or indirectly, for every extravagance affecting it from the inception to the termination of the fund.

Every compulsory contribution levied by public authority upon people or property is in the broad sense of the term a tax, nor is it made less obnoxious or burdensome if called a fee or a fine. In the figures that follow therefore, all fees, fines, and other exactions, if any, are included with the taxes upon polls and estates. To illustrate the comparative importance of the two classes, it may be said that the taxes upon polls and estates represent about 95 per cent. and all other income about 5 per cent. of the total revenue of the state, and of the counties, cities, towns, districts and precincts therein.

Taxes as defined above have increased by leaps and bounds in recent years. In 1903 the sum of all the taxes

assessed by and within the state of New Hampshire was \$5,373,420.22; in 1913 it was \$8,765,039.07, an increase of \$3,391,618.85, or 63 per cent., in ten years. But these figures do not adequately represent the velocity the upward movement has now attained. To show that it is necessary to divide the ten-year period: The levy in 1908 was \$924,388.79, or 17 per cent greater than in 1903, while that in 1913 was \$2,467,230.06, or 39 per cent greater than in 1908. By so much did the advance in the last half of said period exceed that in the first half. These figures will be the more alarming if it is remembered that while taxes already sufficiently heavy were advancing 63 per cent, the population of the state increased only about $4\frac{1}{2}$ per cent, and while the one was advancing 39 per cent, the other increased only about $2\frac{1}{4}$ per cent.

It is instructive to study the subject from another angle. In the ten years from 1904 to 1914, both inclusive, the annual increase in all taxes defined and limited as above was as follows:

1904	\$ 34,459 91
.. 1905	286,590 14
1906	115,468 39
1907	411,257 46
1908	76,612 89
1909	539,995 97
1910	787,565 31
1911	215,848 50
1912	296,216 85
1913	627,603 43

The average yearly increase for the whole period was \$336,561.85. The upward trend is more plainly shown, however, by dividing, as before, the ten-year period in the middle and considering the halves separately. For the first five years the average annual increase was \$184,877.76; for the last five years it was \$493,446.01. It is surely pertinent to consider how long the little state of New Hampshire, almost stationary in wealth, can sustain a tax already burdensome and increasing at the rate of practically half a million dollars a year without crippling her industries and impoverishing her people. Plainly it is a condition not calculated to attract capital from without the state or to encourage business within the same.

From the per capita standpoint the situation is not less disturbing. In 1903 there were assessed \$12.88 in taxes for each man woman and child in the state. Five years later there were assessed \$14.75 for each individual, and in five years more \$20.09. If in 1913 taxes had been equally distributed among all the people it would have meant a burden of \$100 for each family of five members. Though in reality there was little such equality in the assessment there was much in the payment. The fact is that those who occupy, use or consume property, no matter who owns it, are those who in the last analysis pay most, if not all, of the taxes thereon. If the wage earner or the man of limited means understood he was in reality paying something like \$100 a year in state and municipal and half as much more in federal taxes for the government of himself, his wife and three children his influence and his vote would more frequently make for economy in appropriations and expenditures than heretofore.

No statistics for the year 1914 appear in the above paragraphs for the reason that they are not yet at hand except in part.

TOWN WARRANT

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the Town of Salisbury in the County of Merrimack, in said State, qualified to vote in Town affairs:

You are hereby notified to meet at the Town House in said Town on Tuesday the ninth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriation of the same.

3. To see what sums of money the town will vote to raise and appropriate for repairs of its highways and bridges.

4. To see what sums of money the town will vote to raise and appropriate for permanent improvements of its highways under Chapter 35, Laws of 1905.

5. To see what sums of money the town will vote to raise and appropriate for its State road.

6. To see what sums of money the town will vote to raise and appropriate to build an extension of twenty feet on the southerly end of the Town House for a stage and finish the same. Given under our hands and seal this 19th day of February in the year of our Lord 1915.

STATE OF NEW HAMPSHIRE.

Highway Department Statement.

Highway appropriation required in the Town of Salisbury.

For general repairs of highways and bridges \$825 13
(Chapter 29, Laws of 1899)

Each town shall annually raise and appropriate for the repairs of highways and bridges within such town a sum not less than one-fourth of one per cent., provided no town shall be required to raise more than \$50 per mile.

If the town does not vote to accept State Aid it must set aside as a permanent improvement fund \$330.

If State Aid is desired there must be raised and set aside the sum of \$165.

If State Aid is accepted and voted the State will appropriate \$297.

If the Town votes to apply for State Aid the joint fund will be as follows:

Town to raise	\$495 00
State to give	297 00

Total	\$792 00
-------	----------

Under the provision of the Motor Vehicle Law the State is able to assist in the maintenance of the roads under State Aid.

There is available from the amount appropriated last year, the following balances:

In the State treasury	\$33 30
In the Town treasury	16 28

The estimate for maintenance in our town for the year 1915 is \$249 50

If the Town will appropriate for such maintenance the sum of	100 00
The State will appropriate	100 00

SCHOOL REPORT.

To the parents and citizens of Salisbury:

The School Board present to you the following report.

We have had a year of successful schools in every particular. We endeavored to procure teachers who were competent to fill the positions assigned to them and they labored diligently for the welfare of their pupils, thus showing at the close that their time had been profitably spent. And now a few words to the parents in regard to the attendance of your children at school. The registers show great irregularity which should be remedied. It is very necessary that you see that your children attend school regularly. Do you realize that every day lost are golden moments that can never be recalled? Thus if you allow your children to stay at home they lose interest in school. Rather you should encourage them to be there promptly and in their places if possible.

At the beginning of the Spring term we decided to change the arithmetics, and we feel that it was for the good of the children in so doing, for not only do they derive greater benefit by a uniformity of text books; but by the cleanliness obtained thereby. Many more of our books are in a dilapidated condition and need to be remedied. We recommend that the School District vote us sufficient money that we may be able to make further changes.

Respectfully submitted,

NELLIE C. SANBORN,

LIZZIE B. SAWYER,

BEULAH E. TUTTLE,

School Board.

THE STATE OF NEW HAMPSHIRE

TO THE INHABITANTS OF THE TOWN OF SALISBURY, IN THE
COUNTY OF MERRIMACK IN SAID STATE, QUALIFIED TO
VOTE IN TOWN AFFAIRS: —

You are hereby notified to meet at the Town House in
said town on Tuesday, the Fourteenth Day of March next, at
nine of the clock in the forenoon, to act upon the following
subjects:

1. To choose all necessary Town Officers for the year
ensuing.

2. To raise such sums of money as may be necessary to
defray Town charges for the ensuing year, and make appro-
priation of the same.

3. To see what sums of money the Town will vote to
raise and appropriate for repairs of its highways and bridges.

4. To see what sums of money the Town will vote to
raise and appropriate for permanent improvements of its high-
ways under chapter 35, Laws of 1905.

5. To see what sums of money the Town will vote to
raise and appropriate for its State road.

6. To see what sums of money the Town will vote to
raise and appropriate to observe Old Home Day.

STATE OF NEW HAMPSHIRE

HIGHWAY DEPARTMENT

Highway appropriation required in the Town of Salisbury for the year 1916 :

For general repairs of highways and bridges, \$849 72

(Chapter 29, Laws of 1899)

Each town shall annually raise and appropriate for the repairs of highways and bridges within such town a sum not less than one-fourth of one per cent., provided no town shall be required to raise more than \$50 per mile.

If the town does not vote to accept State Aid it must set aside as a permanent improvement fund \$339.

If State Aid is desired there must be raised and set aside the sum of \$169.50.

(Chapter 35, Laws of 1905, Section 4)

If any city or town desire State Aid they shall raise and set apart an additional sum equal to fifty per cent. of the amount required to be set apart by permanent improvement.

If State Aid is accepted and voted the State will appropriate \$304.80.

If the Town votes to apply for State Aid the Joint Fund will be as follows :

Town to raise,	\$508 50
State to give,	304 80
	<hr/>
Total	\$813 30

The estimate for maintenance in the Town of Salisbury for the year 1916 is \$300.

If the town will appropriate for such maintenance the sum of \$150 the state will appropriate \$150.

SCHOOL REPORT

TO THE CITIZENS OF SALISBURY: —

The schools during the past year have been fully up to the average of former years. With one exception, all the teachers employed have had some experience. In nearly every school much interest was manifested, especially in arithmetic, and we were glad to notice at the end of each term good work had been accomplished. The lack of discipline in any school certainly impedes the progress and should be over ruled.

We would urge the parents to visit the schools and judge for themselves whether the teachers or pupils are at fault. Punctuality in attendance is very essential to promote the best interests of education, and we think there has been a decided improvement. A special effort was made by many of the parents to have their children attend regularly, for which they have our hearty approval.

Respectfully submitted,

HIGHWAY DEPARTMENT.

February 24, 1917.

Highway appropriation required in the town of Salisbury.

For general repair of highways and bridges, \$919 75
(Chapter 29, Laws of 1899.)

Each town shall annually raise and appropriate for the repair of highways and bridges within such town a sum not less than one-quarter of one per cent, provided no town shall be required to raise more than \$50 per mile.

If the town does not vote to accept State Aid, it must set aside as a permanent improvement fund, \$367.00.

(Chapter 35, Laws of 1905, Section 3.)

Each town shall set apart the following amounts to be used for the permanent improvement of its main highways:

Towns having a valuation of less than \$2,000,000, \$1 on each \$1,000.

Towns with a valuation of less than \$3,000,000, \$.75 on each \$1,000.

Towns of less than \$5,000,000, \$.50 on each \$1,000.

Towns of less than \$15,000,000, \$.33 1-3 on each \$1,000.

Towns of \$15,000,000, \$.25 on each \$1,000.

If State Aid is desired there must be raised and set aside the sum of \$183.50.

(Chapter 35, Laws of 1905, Section 4.)

If any city or town desire state aid they shall raise and set apart an additional sum equal to fifty per cent of the amount required to be set apart by permanent improvement.

If State Aid is accepted and voted, the state will appropriate \$330.00.

(Chapter 35, Laws of 1905, Section 5.)

The governor and council shall apportion to each town for each dollar set apart:

SCHOOL REPORT.

To the Citizens of Salisbury:

In presenting this, our annual report we feel justified in saying that our schools the past year have been a decided success. The teachers were capable of managing the schools assigned them and at the close the examinations proved their efficiency.

A word must be said in regard to attendance. Our registers show a large number of absences and it is very discouraging to the teacher to have it thus. The parents are wholly to blame for this and it seems strange that they will persist in letting this prevail term after term and year after year. You are abusing the privileges that are provided you by the citizens of the town in raising so much money to prolong the schools, and not only this but it is a drawback to the children. Many of them will never have any higher education than they get in the district school, therefore no time should be wasted; and if they should attend some high school or academy they must attain a certain rank to enter and time lost here will surely be a hinderance hereafter. Parents, you little realize how much you are harming your children to allow this and unless sickness prevents you should see that they are in their places every day. It is a noticeable fact that in many instances those living the farthest from school are the ones who are the most regular in attendance. Again we recommend the parents to visit the school and see for themselves what the children are doing. It will encourage them to see that you are interested in their work, and also the teacher who works so untiringly for the advancement of her pupils.

Respectfully submitted,

LIZZIE B. SAWYER,

ANNA L. PRINCE,

FRANK E. TOWSE,

School Board.

SCHOOL REPORT.

To the citizens of Salisbury:

In calling your attention to our annual report, we will say that the schools in town were supplied with teachers who were well recommended, and, we hope, have given general satisfaction.

The inclemency of the weather has greatly retarded the progress of our schools during the winter term.

When children cannot attend regularly, they lose their interest and fall short of the attainments expected of them by teachers and parents.

Home influence is a needful requisite to infuse a child with the desire to gain knowledge, for, "As the twig is bent, so is the tree inclined." If we are careful in starting our children in the right direction, we shall have the gratification of knowing we have done our part. Let us show such a willingness to help them in their school work that they will grasp every opportunity to improve, and, by so doing, good results will follow.

The school rooms are well provided with blackboards with the exception of the North Road where the pupils are certainly deserving of a new one. Water tanks and individual drinking cups have been placed in all the schools.

Plans were suggested for various repairs which were deferred owing to the scarcity of help. However, these repairs should be made as soon as possible.

Respectfully submitted,

ANNA L. PRINCE,
FRANK E. TOWSE,
LIZZIE B. SAWYER.

ROLL OF PERFECT ATTENDANCE.

AUDITOR'S REPORT.

Salisbury, N. H., Feb. 17, 1919.

This certifies that I have examined the accounts of the Selectmen and Treasurer of the Town of Salisbury, together with the reports of the Road Agents, School Board, Library Trustees, and other officers of the Town and School District, for the financial year ending January 31st, 1919, and find them correctly cast and properly vouched.

BURON W. SANBORN, Auditor.

For the Town of Salisbury, N. H.

SCHOOL REPORT.

To the Citizens of Salisbury :

The School Board in presenting the annual report, believe that the schools have measured up to the standard of previous years.

On account of the war, great difficulty was experienced in obtaining teachers, but the teachers we procured have given general satisfaction. The serious epidemic which prevailed during the school year, necessitating the closing of the schools, and the absence of scholars on account of sickness, made it difficult for the teachers to get the best results.

There is a tendency among some of the parents to be indifferent in regard to the regular attendance of their children. The irregular attendance of scholars results in the town not receiving state aid. This should be remedied and with the coming of state supervision as contemplated, will be remedied.

Commencing with the Fall term the school house on Shaw Hill was opened and some repairs were made, but more repairs are needed.

The sanitary arrangements in all of the school houses should be improved, and as the State Board of Health is taking action in other towns it probably will do so in this town.

In closing we wish to impress upon the parents, the value of regular attendance at school of the children, and the encouragement given both teachers and scholars if a little more interest is shown by the parents.

Respectfully submitted,

GEORGE B. ADAMS,
MAUD A. PRINCE,
SARAH A. HUNTOON,

Roll of Perfect Attendance.

Fall term:—Marjorie Rayno, Orvie Shaw, Beatrice Holmes, Fred D. Little, Ida J. Prince.

L. N. SAWYER, Treasurer,

AUDITOR'S REPORT.

Salisbury, N. H., Feb., 14, 1920.

This certifies that I have examined the accounts of the Selectmen and Treasurer of the Town of Salisbury, together with the reports of the Road Agents, School Board, Library Trustees, and other officers of the Town and School District, for the financial year ending January 31st, 1920, and find them correctly cast and properly vouched.

BURON W. SANBORN, Auditor.

For the Town of Salisbury, N. H.

REPORT OF THE SCHOOL BOARD.

The work of the year has, as a whole, been very satisfactory considering the difficulties we have had in securing teachers and in getting needed supplies.

We have been more fortunate than many other towns in that we have been able to keep all of our schools open while the shortage of teachers has forced many towns to close some of their schools.

A few changes have been made in text-books used, at the suggestion of our superintendent, Mr. Sumner, who has given us many valuable suggestions and assisted in every way possible so as to bring our schools up to compare favorably with the schools in larger places.

We are fortunate in having a force of teachers who have been loyal and faithful in their work and have co-operated to serve the best interests of the pupils.

It has been necessary to pay our teachers larger salaries than ever before, but we believe it has been money well expended as most of them are experienced and well qualified.

Something has been done in the way of repairs in most of the school rooms and they have been made to look more cheerful and sanitary. Much remains to be done, but if a little were accomplished each year they would soon be in first class shape.

We have tried to solve the problem which relates to the physical development of the boys and girls in our schools as regards playgrounds and equipment. If you give the boys and girls suitable forms of recreation outside the classroom you will very soon notice an improvement in their work in the classroom, they are made to think and act quicker and will develop a poise that they will carry through life.

Athletic supplies to the value of twelve dollars have been given by friends and it is hoped that a small appropriation will be made so that more can be added.

We ask your support and co-operation in making our schools institutions that will develop the best that there is in our school children and fit them for real citizenship.

With the aid which the state is giving us and the assistance which is available through the superintendent even the isolated country schools will soon compare favorably with any schools in the state.

The school board, recommends that the district raise and appropriate a tax of \$5.00 on each \$1,000 valuation for the support of the public schools, for the purchase of text books, scholars' supplies, flags and appurtenances. Also the sum of \$250.00 for high school and academy tuition.

Also a tax of \$2.00 for each child residing in the district who was enrolled in the public school in the last preceeding school year, estimated at \$190.00.

Respectfully submitted,

GEORGE B. ADAMS,
H. F. TWOMBLY,

School Board of Salisbury.

REPORT OF SUPERINTENDENT OF SCHOOLS.

February 6, 1920.

To the School Board and Citizens:

If you have undertaken this first experiment with school supervision with the expectation that it would show far reaching results during the first few weeks, I fear that you must feel somewhat disappointed. The last legislature, when it enacted into law the bill providing for such radical changes in our system of education, placed a heavy burden upon every school officer.

The State Board has been obliged to make many new rules for the conduct of so large an enterprise and has been seeking a great amount of information about school conditions needed for the intelligent discharge of their heavy responsibilities.

School Boards have grappled with changed accounting systems, new and more frequent reports to the state department of education, the application of the new laws to their financial and educational problems.

To the superintendent has come many details inseparably connected with readjustment to the new system. In this supervisory union there are three towns new to him—one which has never had a superintendent before; one which has had none in recent years; and one transferred from the Pittsfield Union. There are twenty teachers outside of Penacook, and only one of these has ever worked under me before.

I keenly regret that during this first half year it has not been possible for me to be in the schoolroom more and to come into closer touch with parents, teachers and children. If I can hope that there have been some results from this first six months' work they will be shown not this year but in the years that are to come. Now that the beginning has been made I trust that during the remainder of this year and more especially during the com-

ing year, my time may be devoted less to machinery and more to the real work of the superintendent as supervisor of schools.

On taking account of stock I found that the supply of textbooks was low. The School Board were very ready to provide money to meet any reasonable demands and I have purchased a considerable amount of new material, especially in reading and history. The teachers I am sure, have appreciated these additions. If they are impatient of delay in supplying their further needs I can only say that I have tried to meet the School Board's liberality with great care in furnishing where the need is greatest. It is very easy to spend money and increase your equipment—it takes time and pains to place every dollar "where it will do the most good."

It is impossible in these days for School Boards and Superintendents to prevent great increases in school expenditures, but I would like to be able to convince the citizens of Salisbury that every added dollar has brought an adequate return.

Salisbury has felt this year the shortage of teachers which is nation-wide. There is every indication that next year this difficulty will be increased rather than lessened. The only hope of securing good teachers for our schools next year is to decide early what we can afford to pay—decide to pay more than we think we can afford—and then to attempt to hire teachers for next year at once. It is useless to talk about the salaries paid fifty years ago or yesterday. The teachers of the entire country feel that they have long been underpaid. They are leaving the profession by hundreds and thousands. Nothing but greatly increased salaries will stem the tide. Rural schools were affected first and they will continue to be hit hardest. If every school in Salisbury has a satisfactory teacher next year it will be brought about only because everyone concerned—taxpayers, voters, the homes where teachers board, the School Board and the superintendent, have done their very best.

The State Board is directing the improvement of the health of the children along three lines. First, more hygienic buildings; second, exercises for physical improvement; third, physical examination of children at least once a year.

During the last summer much improvement was made on the interior of most of the schoolrooms. During the next few years it will be necessary to improve to a large degree the toilets and the lighting. A set of exercises for school children is being prepared and will soon be in the hands of the teachers. The Salisbury School Board has yet to appoint a school physician or school nurse who will examine the children before the end of the present year.

It is easy in times like the present to become discouraged, to discover currents in this heterogeneous mass which makes up the citizenship of our country which may spell disaster in the immediate future. But you and I are not ready to admit that the United States of America cannot find the wisdom, and the strength, and the courage, to cope successfully with its tremendous and dangerous problems. And if in the providence of God, through fearless and intelligent leadership we shall weather the storm for the next few years, it will still be true, as it always has been, that our more distant future, twenty—forty—sixty years from now, is in the hands of the homes, and the churches, and the schools of today; and so long as anybody anywhere believes that there is anything worth doing in this world of ours, it will be worth while to give of our time, our energy, and our money—to the point of sacrifice if necessary—for the training of the generation which will take our place in a few years, will make its contribution to the common good, and will pass on to future generations what they have received from the past through us.

It has been a relief to me to know that the School Board realized that this first year of organization has been a somewhat difficult one for me as it has been for the Board. Allow me to express my appreciation of the helpful attitude of the teachers and of those citizens with whom I have come in contact.

Respectfully submitted,

GEORGE W. SUMNER.

HEALTH REPORT.

Salisbury, Jan. 31, 1920.

There was but one call for the Health Officer to act during the year. In May I was called upon to visit Mr. Minard's family. I found it necessary to call a physician to diagnose the case, who pronounced it scarletina. Quarantine was immediately established and continued for thirty days until all were recovered, no case proving fatal. The house was duly cleaned and there was no further spread of the disease.

Respectfully submitted,

CHARLES A. GREEN,

Health Officer.

AUDITOR'S REPORT.

Salisbury, N. H., Feb. 17, 1921.

This certifies that I have examined the accounts of the Selectmen and Treasurer of the Town of Salisbury, together with the reports of the Road Agents, School Board, Library Trustees, and other officers of the Town and School District, for the financial year ending January 31st 1921, and find them correctly cast and properly vouched.

BURON W. SANBORN, Auditor.

For the Town of Salisbury, N. H.

SCHOOL REPORT.

The School Board in presenting this annual Report wish to thank the citizens of Salisbury for their support and co-operation during the past year.

At the beginning of the school year it was almost impossible to secure teachers, and the board found it necessary to close the North Road and Shaw Hill Schools. The pupils of North Road district are attending the Flag Hole School of Andover and the pupils from Shaw Hill are attending South Road School.

The work of the year has been very satisfactory and the attendance has been good.

Quite a few repairs have been made and more are needed. The Kaustine System has not as yet been installed at South Road, owing to delay in receiving it in time for installation before the school opened. We hope to have this installed during this spring vacation.

Our superintendent has bought a good supply of text books and we feel that the scholars have shown decided improvement.

The superintendent is handicapped by the necessity of filing numerous reports with the State Board of Education in Concord, and by the quantities of red tape which must be gone through.

We feel that a lot of these reports are unnecessary and are of no benefit except to give some needy person in Concord a chance to draw a salary.

Respectfully submitted,

GEORGE B. ADAMS,
HARRY F. TWOMBLY,
HAROLD A. PRINCE,

School Board.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens :

During the year the superintendent's work in the union has become better organized, the needs of the schools are better understood, and, in some cases, have been better supplied. Teachers and pupils seem to appreciate the increased number of books that the state money has made it possible to secure. Prices on books and supplies are now so high that it is still difficult to make the increased appropriation cover all our needs.

The school boards in all five districts of the union have now adopted the Uniform Accounting System devised by the State Tax Commission and prescribed by the State Board of Education and have this year arranged to have all their bookkeeping done in this office. The superintendent's secretary has charge of this work, but a considerable amount of it is actually done by the senior class in Commerce of Penacook High school.

The first draft of the financial report for each of the five districts was made by the secretary and the pupils, using the Annual Report to the State Tax Commission as a basis. This draft, corrected by the superintendent and rewritten, was then presented to the school board, amended by them to meet their own requirements, and returned to the secretary to be put into final form for printing.

The directing of this work has taken more of my time during February than could be properly given to such work every year, but it is hoped that the form of this report will meet the requirements of both state and district accounting to such a degree that it can be used as a pattern for several years to come.

From the records of the last district meeting I note that many citizens of Salisbury object to paying any portion of the salary of the superintendent's secretary. If they could visit the office and go over with me the work being done there, I am certain that some of them

would see the need of her services. As bookkeeper for the five districts, she records transactions amounting annually to more than \$50,000, with an entirely separate system of accounting for each of the five districts. All the books and scholars' supplies, to the value of over \$2500 are ordered at this office, and received, unpacked and checked here, and from here distributed to the various schools; the supplies being purchased in a lump by the Penacook district and sold at cost to the four other towns. The first draft of most of the reports required by the State Departments are prepared here. None of this work can be neglected and none can be done carelessly. This together with handling the correspondence with state officials, teachers, school boards and other school officials, and parents, and keeping the records of pupils, is enough to keep one person busy. Come in and convince yourself that the work done for Salisbury is worth the \$90 it is costing you. Office rent, heat, light, furniture and equipment, are all provided by Penacook free of charge.

In this connection the following statement from the figures of last year may be of interest:

Proportion of State Tax paid by Salisbury for Education,	\$448 56
Tax for State-wide Supervision,	184 00
Share of Excess Salary of Superintendent,	75 00
Share of Salary of Superintendent's Secretary,	75 00
	<hr/>
Total paid,	\$782 56
Salisbury received State Aid,	\$1,259 00

This means that under the present law, Salisbury last year received the services of the superintendent and secretary free, and in addition, a balance of \$476.44 to put into its schools. Unless the legislature now in session changes the law, you will this year receive a considerably larger sum.

There is still a scarcity of good teachers. In some towns of the union it has been very difficult to secure them and in several cases teachers below the minimum standard of qualification have been hired on a special

permit. It is most important that our teachers should be above the minimum standard in education and training; and in personality, for which there can be no standard, a better type is needed in a considerable number of instances. This paragraph, you will note, is applied to the entire supervisory union rather than to any one town. Any narrower application might make some over sensitive teacher believe that I am singling her out for criticism, which is farthest from my intention.

It seems reasonable to hope that those towns willing to pay salaries comparable to what other towns in similar circumstances pay, where good homes can be obtained, and pleasant, well-equipped school houses furnished, will be able in a few years to make satisfactory progress toward a well qualified, efficient, and somewhat permanent teaching force. I certainly hope, however, that the time will not return when a dismal, poorly kept school house will satisfy a teacher of any ability; when good teachers will remain where there is serious lack of equipment, or will bear with the nagging of petty fault finding, the loneliness of boarding places which do not offer them some of the protection and sympathy of the home, and inadequate salaries. It is for the good of the children that I hope this, for when such conditions make it impossible to secure a teacher, those conditions will change and the children's lot will be bettered by improved buildings and the companionship of a more cheerful and enthusiastic leader.

I occasionally note the tendency in individual citizens, even board members, to feel that the state has now taken over the education of its children and that local interest is no longer important. The state sets minimum standards, it is true, as to buildings, equipment, teachers and curriculum, but it is still the privilege and the duty of the individual district or its school board to determine, within these standards, what type of buildings, teachers, and what courses of study it wishes to provide. State supervision and state aid can do much to improve the educational standard, but centralization of authority combined with any general lack of local interest is bound to produce a uniform and monotonous mediocrity. A uniform system for accounting or for any other mechani-

cal operation tends toward ease and efficiency, but God forbid that we should ever drift into lazy methods of uniformity in handling and in educating the infinite variety of live boys and girls in our public schools. This is a time for local interest to increase, for intelligent criticism to assert itself, and for electing to the school board, men and women with qualifications for strong leadership.

Respectfully,

GEORGE W. SUMNER.

MONEY NEEDED FOR THE COMING YEAR.

We recommend that the district raise for the coming school year, a tax of \$5 on each \$1000 of valuation, for the support of elementary schools (including text books, scholars' supplies and flags).

In addition to the \$5 we shall need: For High School and Academy tuition, \$660.00. Tax for state-wide supervision (\$2 per pupil) estimate, \$150.00.

The law provides that the salaries of the school board, the district officers and the truant officer be fixed by vote of the district.

We recommend that the district raise for repairs, \$400. And for the expenses of administration, \$275.
